# FAQS

## Why is there a range in the number of serves?

It depends whether you will be serving the cake or slice as a dessert serve or a coffee or cocktail portion. Our cakes are calculated based on the following sizes. A regular portion which can be served instead of dessert (1x2x5inches) and a coffee portion (1x1x5inch).

## How big are your cakes?

Our standard cake consists of 4 layers of cake and is filled with our signature naturally flavoured Swiss meringue buttercreams. Each tier stands approximately 5 inches tall. Please refer to the price guide on the cake menu for the recommended number of serves.

## What sets your products apart?

We believe in baking the old fashioned way (like my Granny use to) by using the best local ingredients to create naturally delicious products. We do not use artificial flavours and prefer to use natural colours where possible to produce beautiful baked goods that taste as good as they look. Every product is handmade, quality checked, packed and delivered with care and excellent customer service.

## Where are you based?

Maree Bakes is a registered home kitchen located in The Vines. We moved to Perth in 2022 from Australind where we had previously operated since 2019.
